

# Coastlink

## Coastlink's 7th Annual Conference 14/15 September 2010

### Port of Antwerp Havenhuis, Entrepotkaai

Coastlink is a pan-European neutral organisation dedicated to the promotion of short sea and feeder container shipping to achieve environmentally friendly modal shift. Its aim is to promote collaboration at all levels to maximise existing and potential shipping networks and regularity of services.

#### Themes

- Inland waterways – still an underutilised asset
- Private rail operators bring competition to intermodal rail transfers
- Intermodal evolution in the UK, still a major market for international shippers
- The role of RoRo in container transfer
- New tools for the multimodalist

#### Why go?

- Debate and network with key players in the European transport sector
- Learn from others in your sector as to how they address key bottlenecks and embrace new initiatives
- Adopt best practice to suit your business
- Enhance your competitiveness
- Cost effective delegate fees

#### Who will go?

Delegates from shipping lines, ports, shippers, barge operators, rail and road transport operators, crane manufacturers, shipyards.

Many delegates and members of Coastlink have been members and have attended Coastlink conferences since its foundation in 2004.
